MONSTRUOS
LIBRO PARA CROMOS
CARME & RICARD

Nuestro mundo se ha ido poblando de criaturas fantásticas, gigantes, espectros, monstruos de todas clases. En una palabra: ENIGMAS.

El Universo está lleno de enigmas y sólo el hombre permanece asombrado ante todo y sobre sí mismo. Porque el hombre, sabio entre los sabios, tiene idea de su propia ignorancia. Y quiere saber..., y el saber comienza con preguntas.

¿Existen los extraterrestres?

¿Y los espectros?

¿Qué es un nosferatu?

En este álbum no encontraréis las respuestas, porque no hay respuestas para los MISTERIOS del Universo. Pero abrid y asombraros ya que el asombro y la pregunta son el principio de toda filosofía.

Y como dijo Einstein: "El encuentro con lo MISTERIOSO es la experiencia más hermosa. Es el origen de la vida".
